Bina Nusantara University

2025/2026

1. Deskripsi Aplikasi

TitipIn adalah sebuah platform berbasis web yang dirancang untuk memungkinkan mahasiswa dalam memesan makanan atau minuman antar lantai di lingkungan kampus. Aplikasi ini menghubungkan mahasiswa yang menginginkan makanan/minuman dari lokasi tertentu (Titiper) dan mahasiswa yang lain yang bersedia mengantarkan pesanan tersebut (Runner). Aplikasi ini juga memungkinkan semua mahasiswa untuk bertukar peran secara fleksibel, seorang mahasiswa dapat menjadi pemesan di satu waktu, dan menjadi pengantar di waktu lain.

2. Fitur Aplikasi

Sistem ini membagi hak akses menjadi dua kategori utama, yaitu User (Mahasiswa) dan Administrator. Berikut adalah rincian kapabilitas fitur yang dimiliki oleh masing-masing peran:

a. User

Setiap akun User (mahasiswa) memiliki fleksibilitas untuk mengakses dua mode sekaligus, yaitu sebagai Penitip (Titiper) dan Pengantar (Runner). Fitur pada peran ini dibagi menjadi tiga kategori:

- Fitur Umum:
 1. Melakukan pendaftaran (Sign Up) dan masuk (Login) untuk keamanan akses.
 2. Mengelola informasi pribadi seperti username, email, dan nomor telepon yang dapat dihubungi.
 3. Mengganti Role untuk berpindah peran dari Titiper ke Runner dan sebaliknya.
 4. Mengubah bahasa pada web menjadi bahasa indonesia maupun bahasa inggris
- Fitur Titiper
 1. Melihat katalog lengkap makanan dan minuman dari berbagai kantin kampus serta mencari menu spesifik berdasarkan nama.
 2. Memesan makanan dan minuman yang tersedia pada menu
 3. Mengatur jumlah porsi pesanan dan menambahkan catatan khusus seperti preferensi rasa agar pesanan sesuai keinginan.
 4. Menentukan titik pengantaran spesifik (Lantai/Ruang Kelas) atau menambahkan lokasi tujuan baru jika belum terdaftar.
 5. Melihat semua status pesanan yang sedang berjalan seperti pesanan sedang dibuat, sedang diantarkan, pesanan selesai.
 6. Memberikan penilaian berupa rating bintang dan komentar terhadap kerja Runner setelah transaksi selesai.

- Fitur Runner
 1. Mengakses daftar permintaan pesanan aktif dari seluruh Titiper di kampus.
 2. Mengambil pesanan untuk diproses dan mengunci statusnya agar tidak diambil oleh pengantar lain.
 3. Memperbarui status perjalanan dan menyelesaikan pesanan.
 4. Melihat rekam jejak performa diri sendiri melalui akumulasi penilaian dan ulasan yang diterima dari Titiper.
- b. Admin
 1. Menampilkan statistik ringkasan sistem secara visual (Total User, Runner, Menu, Titipan) dan grafik pendapatan mingguan pada dashboard utama.
 2. Memantau operasional melalui fitur Leaderboard yang menampilkan peringkat Runner dengan aktivitas tertinggi serta daftar Menu makanan yang paling laris.
 3. Melakukan pengelolaan data master secara terpusat (Create, Read, Update, Delete) pada enam entitas utama sistem, yaitu Pengguna, Lokasi, Kategori, Menu, Titipan, dan Ulasan.
 4. Mengatur preferensi bahasa antarmuka aplikasi (Indonesia/Inggris)

3. Panduan Instalasi dan Penggunaan

Sebelum melakukan instalasi project TitipIn, pastikan telah mengunduh software dibawah ini:

- a. Git
- b. PHP 8.2
- c. Composer
- d. Node.js & NPM
- e. XAMPP atau Database MySQL lainnya

Panduan Instalasi:

1. Clone repository TitipIn
git clone https://github.com/Andersen-C/TitipIn.git
2. masuk ke dalam folder TitipIn
cd TitipIn
3. Install seluruh dependencies PHP
composer install
4. Buat file .env
5. Copy isi file .env.example ke dalam file .env
6. Generate Application Key
php artisan key:generate
7. Buat database baru pada XAMPP
8. Sesuaikan nama database pada XAMPP dengan file .env
DB_DATABASE=nama_database

9. Jalankan migrations dan seeder
php artisan migrate
php artisan db:seed
10. Install Tailwind CSS v4.1 dan DaisyUI
npm install -D tailwindcss postcss autoprefixer
npm install daisyui
11. Jalankan NPM
npm run dev
12. Link direktori storage/app/public dengan direktori public
php artisan storage:link
13. Jalankan Server Development Laravel
php artisan serve
14. Buka aplikasi TitipIn melalui browser

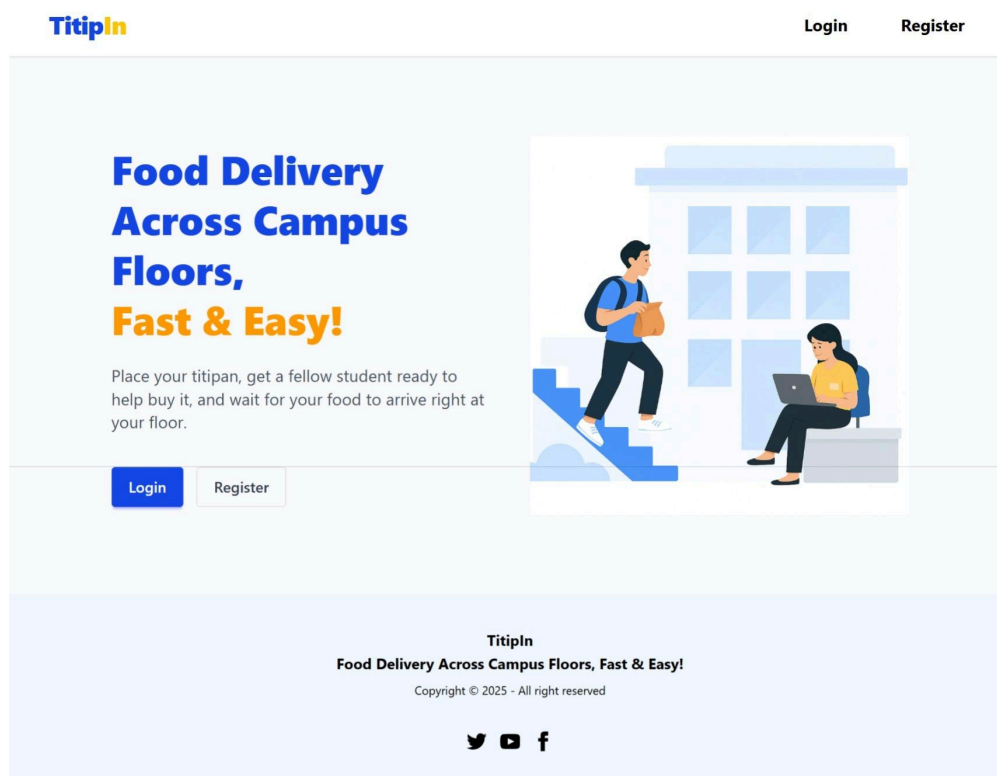

TitipIn telah berhasil di install, anda dapat mencoba seluruh fitur yang terdapat pada aplikasi TitipIn. Untuk mengakses website sebagai user, anda dapat melakukan register dan login. Namun, untuk mengakses website sebagai admin, berikut merupakan credential yang dapat digunakan:

email: admin@campus.ac.id

password: password1234
